

The Custodian® Toilet Flushing Control Panel

Providing Safety and Security With Enhanced Comfort and Care

The Custodian® offers individual control and enhanced comfort while maintaining maximum safety and security.

The Custodian® Range is the complete secure bathroom solution designed to improve the rehabilitative process.

FEATURES

- Smooth and attractive design with pictogram etchings
- Robust and secure, impact resistant, designed to exceed IK10 requirements
- Exceeds Anti-Ligature requirements of TS001:2013 *
- Suitable for a wide variety of construction methods, designed to reduce installation time and improve space efficiency in duct risers
- Easy to install with IP68 Rated cable connections
- The Control Panel is connected to the Smartboard and the Smartflow Management system. System reporting of all functions is provided through the Smartflow Water Management system.

* It is recommended that approved anti-pick sealant be used around panel edges
