

Foot Operated Basin Kit - Spring Action

HFS775

The self-closing foot operated valve is located beneath the basin and when pressed with the foot it turns the water flow on until released. This allows the user to wash hands without having to touch the taps.

Application includes area such as food manufacturing, food service, commercial kitchens and areas where hand hygiene is important.

FEATURES

- 100mm fixed aerated basin outlet
- 1 m flexible connection hose
- 1 mini isolating stops
